EXPERIENCE

Creative Design & Consultations   *2004 – Present*
In addition to teaching, I have also managed freelance design services that maintain a commitment to achieving client goals while also ensuring the serving of people and community. Significant examples include:
• Creation of a book which entailed my freehand illustrations and effective layout in Adobe InDesign, currently being published for commercial use in the medical field
• Custom illustration and poster design for community groups including police unions, school enrichment programs such as AVID and community recreational programs
• Video editing, animation and multimedia applications grounded in assisting clients to share stories in their work
• Restoring old black and white photographs through the use of Adobe Photoshop to preserve client's family memories
• Other projects have entailed building portfolios for entertainment professionals, screen printing, branding projects and creation of custom cards.

Morris County School of Technology, Design Academy Teacher   *2016 – Present*
• Teaching through a collaborative approach in which diverse strengths in fine arts and digital design were applied resulting in outstanding student achievement
• Students won many competitions, have had work exhibited in high profile locations and moved on to secure competitive internships
• Guided students through branding projects, exhibit design, fine art investigations and murals - all aimed at developing student voice

Morris County School of Technology, Visual Arts Teacher   *2008 – 2016*
• Create a curriculum and pilot a visual arts program at MCST
• Implement arts practice techniques, participate in co-curricular lessons, and construct portfolios for college, entry level, submissions
• Students won many competitions and have had work exhibited in high profile locations.
